

MobiLink

SMART PHONE VEHICLE CONTROL PRODUCT MANUAL

Limited Lifetime Warranty

This vehicle security system is warranted to the original purchaser, to be free from defects in material and workmanship. The manufacturer will repair or replace at its option, and free of charge for the first twelve (12) months, any part that proves defective in material or workmanship under normal installation, use, and service, provided the product is returned to the manufacturer freight prepaid. After the first 12 month warranty period there will be a maximum service charge of \$25.00 per calendar year (if required) for repair and/or replacement of any defective parts.

A copy of the original purchase and installation receipt must accompany any products returned for warranty service.

Warranty is limited to defective parts and/or replacement parts only and excludes any incidental, a consequential damages connected therewith.

The manufacturer of this theft deterrent system makes no warranty against the theft of the vehicle or its contents. This warranty is not to be construed as an insurance policy against loss.

WARRANTY OF INSTALLATION LABOR, REMOVAL AND RE-INSTALLATION CHARGES ARE NOT THE RESPONSIBILITY OF THE MANUFACTURER.

Note: This Warranty is voided if the product was not installed by an Authorized ScyTek Dealer.

Sub User Page

Subuser account allows for additional users to manage the fleet vehicles with varies degrees of control.

The screenshot displays the 'Subuser Management' interface. On the left, a sidebar lists expandable sections: Full Name, User Name, Password, Email, Phone, Measurement, Permissions, and Vehicles. The main area shows the following details for a user:

- Full Name: Jim Notal
- User Name: JimNotal
- Password: Notal1
- Email: Notal1@gmail.com
- Phone: 8132420822X
- Measurement: Miles
- Permissions: View/Track, Basic Command, Security Command, Vehicle Management, Alert Setup

Below the permissions, a table lists assigned vehicles:

Serial No	Device	Model	Group	
00501	Demo-1	Demo	Soytek	<input checked="" type="checkbox"/>
00504	Demo 2	Demo 2	SoyTek	<input type="checkbox"/>

At the bottom, there are 'Save' and 'Clear Form' buttons, a message 'There was no data returned for the report', 'Record count: 0', and a search bar with 'Find: Name' and a 'Search' button.

Click on Subuser Management to edit the page.

This is an identical screenshot of the 'Subuser Management' page as shown above, displaying the same user details, permissions, and vehicle assignment table.

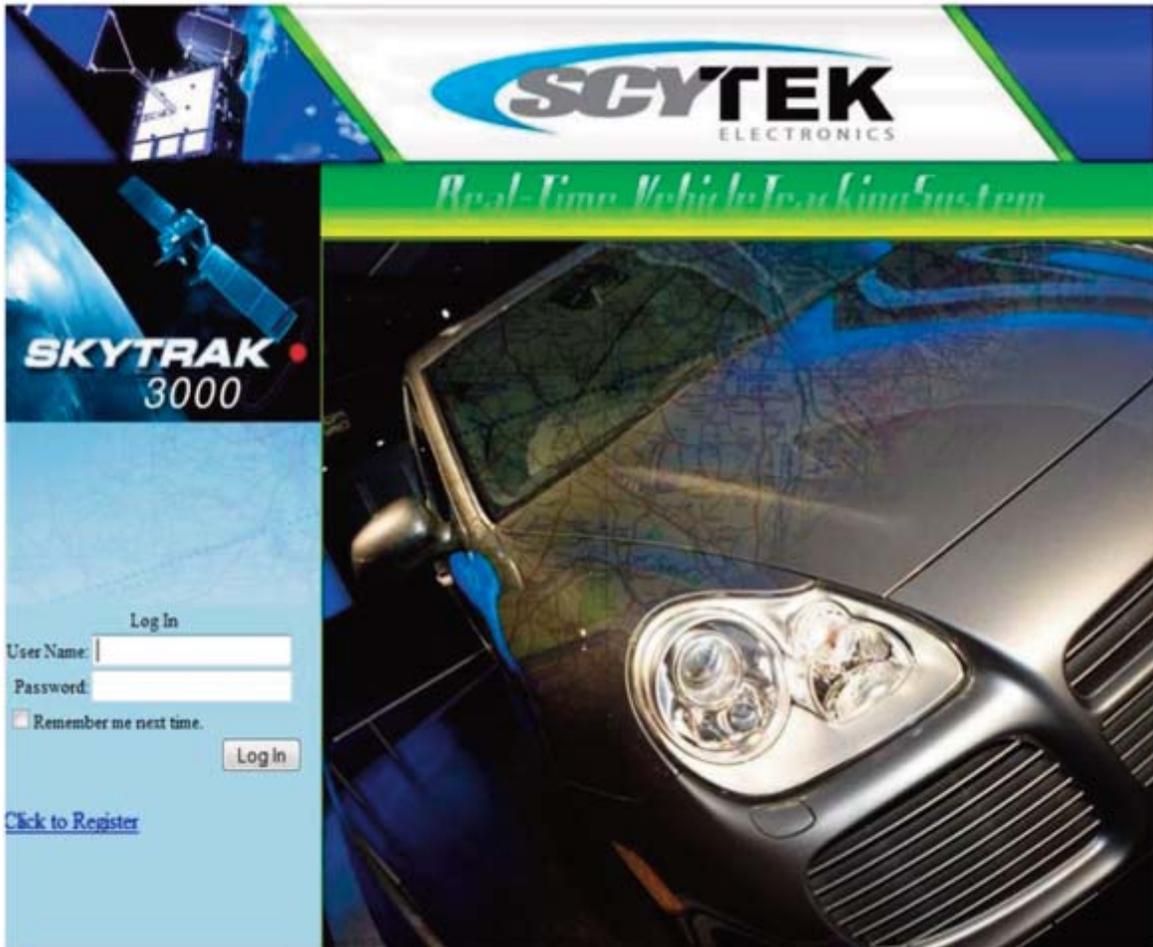

Register the sub user and assign the vehicles and checkmark the desired privilege of the user. More than one sub user can be assigned to that vehicle group.

Astra Mobile Page

login page www.scytrak.net

MobiLink GPS Login Page:

Login: input your Login ID and your Password. "you may change your password at any time for your personal security" Click on the field marked "Sign in" and you will then be taken to your MobiLink GPS Home Page.

Home Page

Your MobiLink GPS Home Page will have your vehicle(s) listed and look very similar to this. Click on the Vehicle name to select that particular vehicle, the screen will refresh displaying the map with the breadcrumb trail showing the last locations of the vehicle.

Vehicle Alert Window

System Alerts

1. Geo Fence Alert setup:

Type in the address of the Geo Fence window and the boundary size, chose if alert is for antry into or exit from the boundaries. Select the Geo Fence Alert.

2. Time Fence Alert:

Set the time alert window, when alert is on, if the vehicle ignition is turned on within the time window an alert will be set.

3. Speed Alert:

Select the speed threshold, when the alert is set, if the vehicle speed exceeds the set speed Alert is set.

4. SMS Alert:

SMS alert sends all alerts as a text message to the preset SMS and Email addresses specified in the vehicle setup window, note: that multiple Emails and text messages are allowed.

5. Input Alerts:

There are four alert inputs that can be selected.

Input 1 - Sensor Trigger WarnAway

Input 2 - Hood/Trunk Alarm

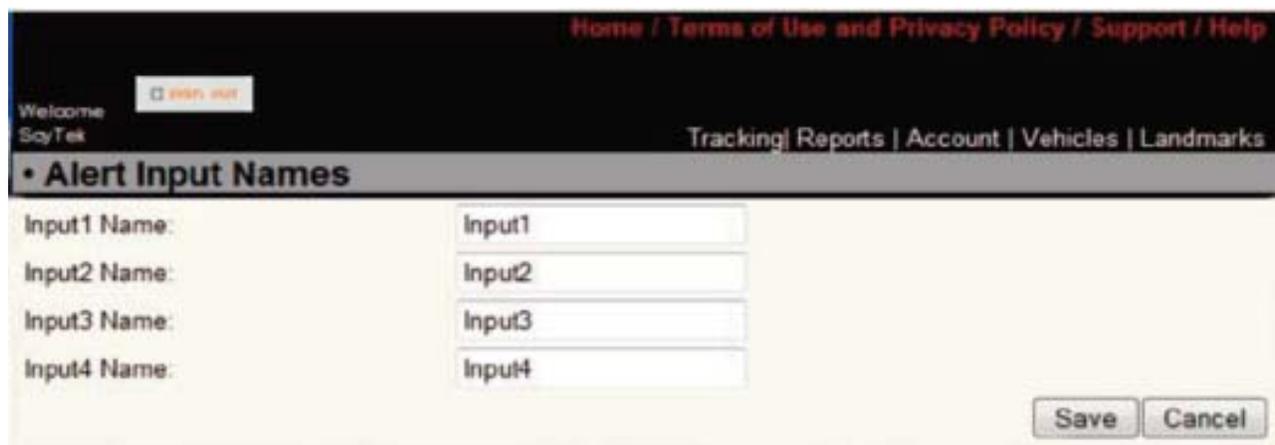

Input 3 - Sensor Trigger Alarm

Input 4 - Door Trigger Alarm

After completion of alert setup, Press the save button on the bottom of the screen to save the setup in the remote unit.

The **Success** response indicates the unit received the alert setup.

Renaming Input Alerts

The screenshot shows the ScyTek mobile application interface. At the top, there is a navigation bar with links for Home, Terms of Use and Privacy Policy, Support, and Help. Below this, there is a header area with "Welcome ScyTek" and a "Logout" button. The main content area is titled "Alert Input Names" and contains four rows of input fields for renaming the alert inputs. The fields are labeled "Input1 Name:", "Input2 Name:", "Input3 Name:", and "Input4 Name:". The current values in the fields are "Input1", "Input2", "Input3", and "Input4". At the bottom right of the screen, there are "Save" and "Cancel" buttons.

Mobilnk Home Page

In the main Page provides tracking and control of the vehicles. View all vehicle locations on the map by checking the Check all box and clicking on the Track Today/Refresh button. Refresh location manually by clicking on the Track button of the specific vehicle. When success result appears the map will refresh automatically and display the latest vehicle location. Select the **auto refresh** mode to refresh the display once a minute automatically, this feature provides a live display of all the selected vehicles.

The screenshot displays the Mobilnk Home Page interface. At the top left is the 'SKYTRAK 3000' logo. Below it, the date and time are shown as 'Mar 3 2010 16:04'. There are buttons for 'Track', 'Track Latest / Update', 'List Duplicate Events', and 'Auto-Refresh'. A 'Group: All' section is followed by a 'Vehicle List' with two entries: '1 Demo-1' and '2 Demo-2'. A circular callout highlights the 'Track Output' buttons for each vehicle. The main map shows the Burbank area with several vehicle icons (red and green) and their corresponding location markers. At the bottom, there is a table of vehicle data for 'Demo-2'.

Device Details:

- Device model: 3000
- Speed: 0 km/h
- Input 1: 0.000
- Input 2: 0.000
- Input 3: 0.000
- Input 4: 0.000
- Expiration: 12/31/2010
